

MUHAMMAD FARHAN

Frontend Developer

+923323382464 | muhammadfarhanworks@gmail.com | <https://farhandevportfolio.netlify.app/> | Karachi, Pakistan

KEY ACHIEVEMENTS

Frontend Projects

Completed multiple projects using HTML, CSS, and JavaScript with responsive and interactive UI.

Continuous Learning

Dedicated 8–10 hours daily improving coding skills and building new projects.

Coding Night Participation

Successfully completed a 12-hour Coding Night challenge focused on problem-solving.

Major E-Commerce Build

Developed a full E-commerce website as a major frontend project.

EDUCATION

Computer Science

Al-Suffah Academy

2022 - Present

Modern Web & Apps Development

SMIT

2025 - Present

PROJECTS

E-Commerce Website

Academic Project

Tech Used: HTML, CSS, JavaScript, Bootstrap, Supabase.

- Achieved 100% mobile responsive using Flexbox, and media queries.
- Developed a 5+ page responsive e-commerce website using HTML, CSS, and JS.
- Implemented 15+ UI components (cards, nav, filters, modals) improving overall usability.

Portfolio Website

Personal Project

Tech Used: HTML, CSS, JavaScript, Bootstrap.

- Showcased all 7+ projects with live demos and GitHub links.
 - Added interactive sections such as About Me, Skills, Projects, and Contact Form.
- Designed accessible and user-friendly navigation, ensuring smooth scrolling and readability

Hospital Website

Academic Project

Tech Used: HTML, CSS, JavaScript, Bootstrap, Supabase.

- Built a responsive hospital website allowing users to book appointments online.
- Implemented interactive UI components such as forms, navigation, and schedules.
- Integrated Supabase for backend database functionality to store and manage appointments.
- Ensured mobile-friendly design with smooth navigation and accessibility.

TECH STACK

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS

Frameworks / Libraries: React (Learning), Next.js (Learning)

Backend / Databases: Supabase

Tools / Platforms: Netlify, Github, Figma (for design)
